A brief description of this property:

Ibis House is a newly renovated, purpose built block of flats right in the heart of Richmond. The nine apartments have been interior designed to a very high standard and, using passivhaus principles of design, are quiet, comfortable and extremely energy efficient. The design incorporates high levels of insulation, wooden triple-glazed windows and mechanical ventilation with heat recovery. This means that the apartments enjoy a comfortable and constant temperature and fresh air regularly circulated throughout. Remote controlled heating and sound systems add to the building's state-of-the-art, yet homely, features. The building comprises a mixture of one and two bedroom flats each of which has a fully equipped kitchen/diner.

What we love about this neighbourhood:

- Richmond Park (10 mins by car)
- Walks along the River Thames (15 mins on foot)
- Kew Gardens (12 mins by London Underground)
- Richmond Theatre (10 mins on foot)
- Orange Tree Theatre (5 mins on foot)
- High street shopping area (12 mins)
- Kew Village (10 mins by London Underground)
